## PROFILE

---

As a Computer Science student, I'm building a strong foundation in web development and eager to apply what I've learned in real projects. I'm actively looking for opportunities where I can contribute, grow my skills in both design and development, and gain hands-on experience in UI/UX Design.

## CERTIFICATIONS

---

- Start the UX Design Process: Empathize, Define, and Ideate
- Programming for Everybody (Getting Started with Python)
- Programming Foundations: Data Structures (2023)

## PROJECTS

---

### AutoVision

An android application that can detect exterior Sedan damages with Cost estimation system

### CellScope

An android application that can detect and classify Blood Cells using photos from a blood smear.

### BusyBee Inventory System

A CRUD inventory system designed to monitor and manage items efficiently for a laundry shop

## EDUCATION

---

### Bachelors of Computer Science

Ongoing

Mapua Malayan Colleges Mindanao
